

BLUE JAY

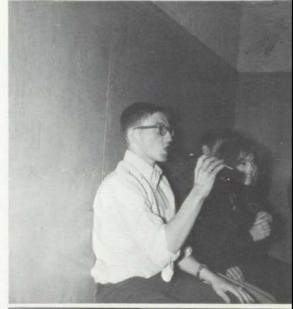

Three Lakes High School Class of 1967

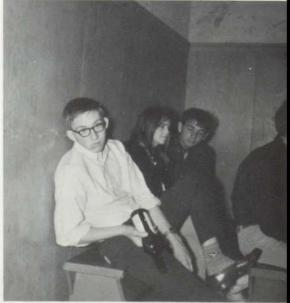

Three Lakes, Wisconsin

This was the year that was . . .

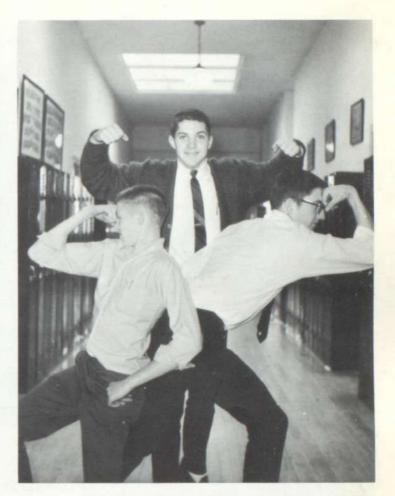

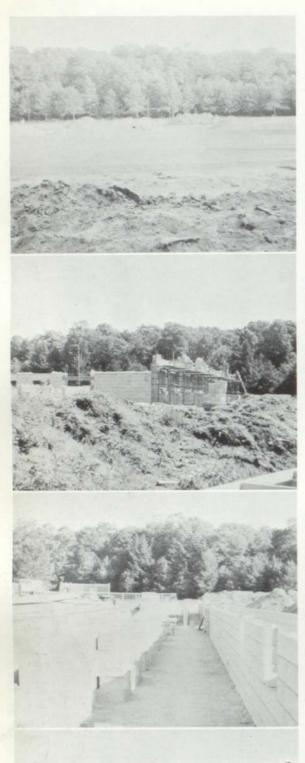

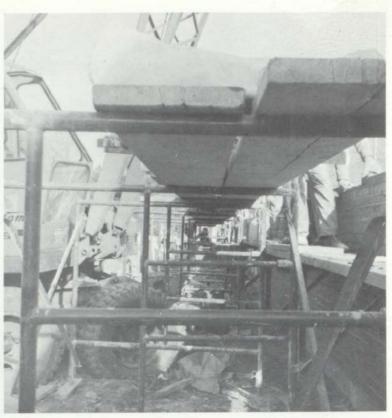

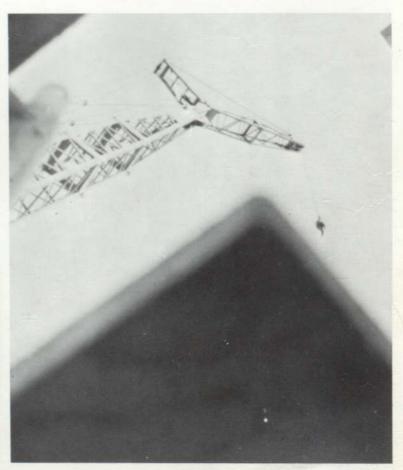

a new beginning

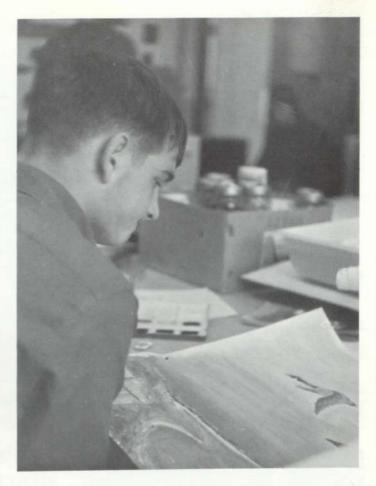

in a rising structure

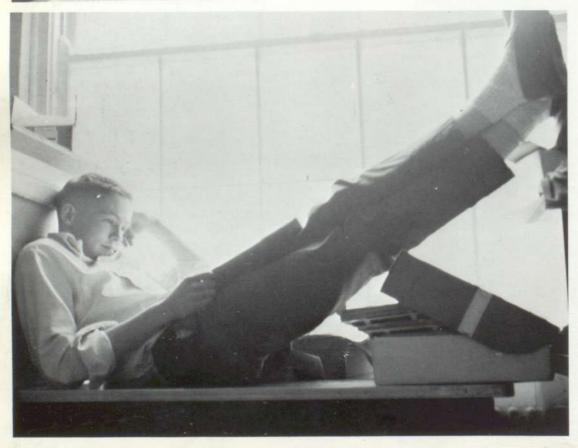

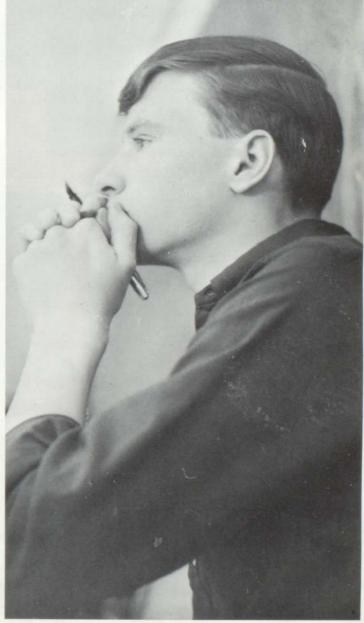

a year of discovery

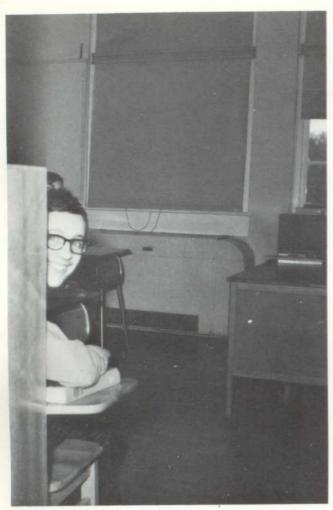

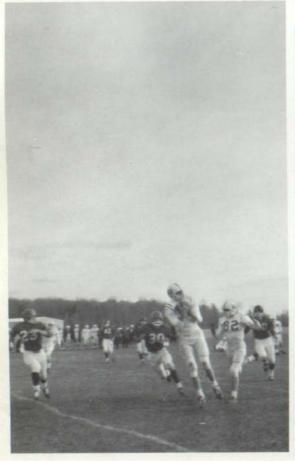

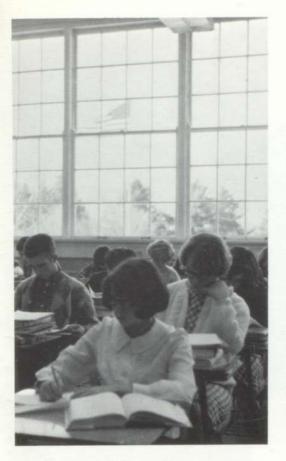

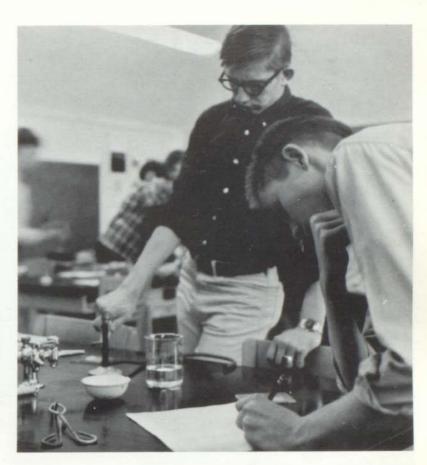

a learning experience

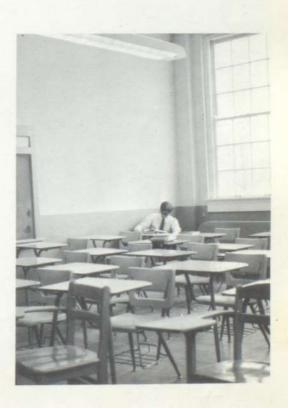

with others

and by yourself

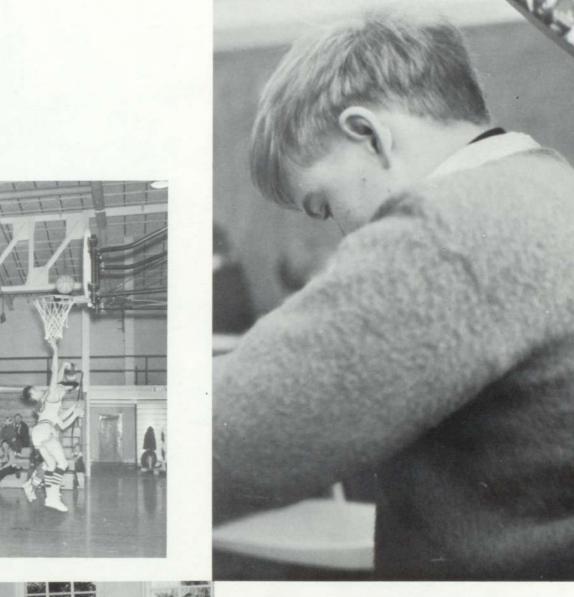

a year that won't be forgotten

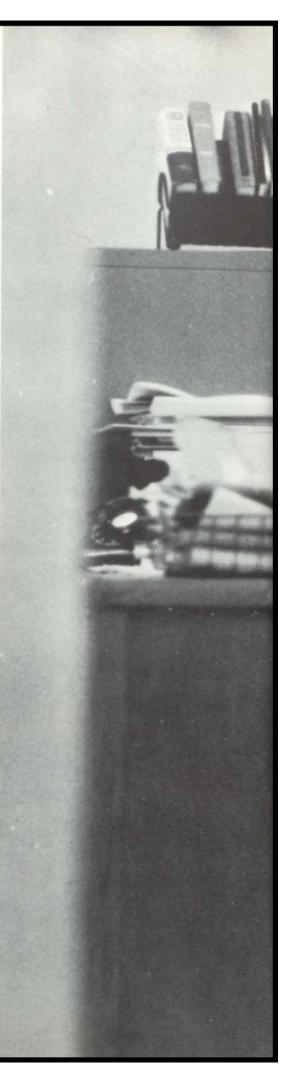

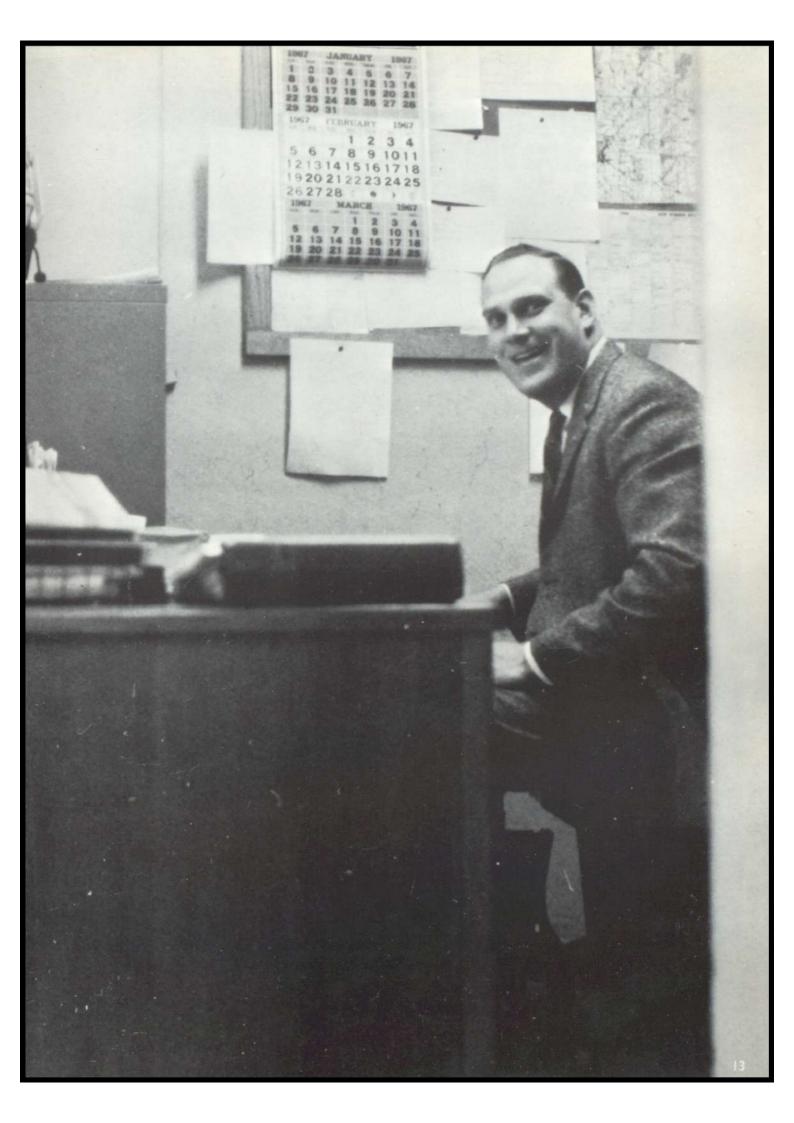

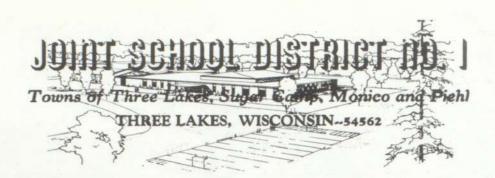

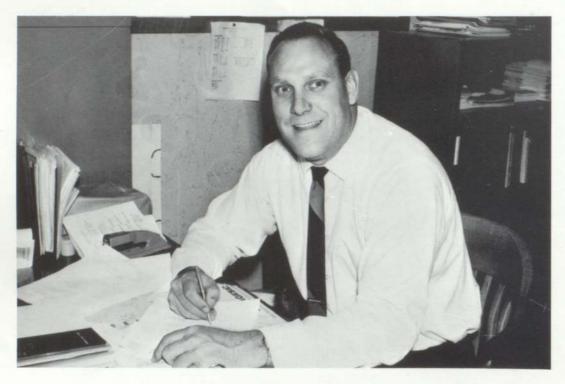

Administration

"Success is for those energetic enough to work for it, hopeful enough to look for it, patient enough to wait for it, brave enough to seize it, and strong enough to hold it."

-Thomas Hukley

The boy or girl who will never fail in life is probably dreaming in another world. Not all of us can expect to fully succeed in everything in life. It simply is not true that if you try and try you will succeed. To put it in other words, don't be afraid to flop. It is better to have dared and flopped than never to have dared.

In life each of us has a batting average. A batter with a 300 average is considered fairly good. But remember that the 300 hitter, in every 10 times at bat, fails seven times to get a hit.

It's fine to strive and succeed, but if you occasionally fail "don't give up the ship."

Remember, if you don't get up and swing, your guaranteed to wind up with a batting average of zero.

Congratulations to all for what you have accomplished, and carry with you the thought that "success is never final and failure never fatal; it's courage that counts."

ROBERT F. SPROUL District Administrator

Each year we, as educators, see another senior class leave our school system to take their place in the world. For some this means further schooling, for others it means employment. But whatever the next step after graduation, we trust that you, our seniors of 1967, have been adequately prepared to take this step.

Remember that education does not end with your formal schooling - learning takes place as long as we live. If you face the future with an open mind and heart and a will for hard work I am sure success will be yours.
