let x = # of lb of 72¢ coffee
 20 = # " " " 90¢ " "
 $20 + x$ = # of lb of mixture
 $78(20 + x) = 72x + 1800$
 $1560 + 78x = 72x + 1800$

BLUEJAY 1973

WHAT IS A BLUEJAY?

OUR TRIBUTE TO MR. JEFF NELL

Some people we meet affect us greatly, and Mr. Nell was such a man. As a teacher and coach he promoted inquiry and helped us to accept challenges, whether they were in the mathematical or physical realm. Mr. Nell's byword was "keep your cool," a philosophy that allowed him to approach life sanely, open-mindedly, and never make a problem out of any situation. Perhaps we can take put his philosophy to work to become better Bluejays, "taking it seriously ... show we care ... expressing ourselves in various ways ... and managing to have fun."

WELL, IT IS SOMEONE WHO . . .

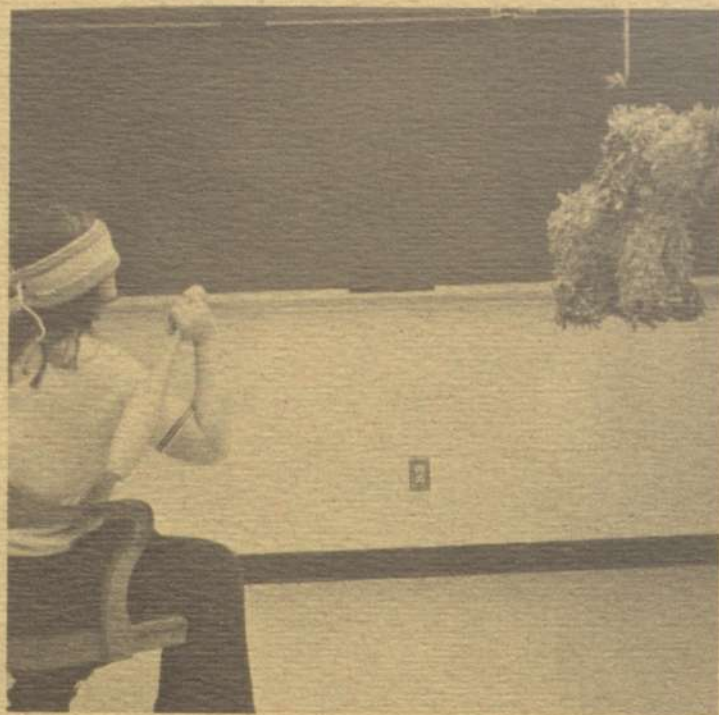

Three Lakes had the privilege of having an American Field Service student for the first time. Dalila Maria Simon Zúñiga from Costa Rica, arrived in the Three Lakes area in August. She spent the year with the Frank Siedschlag family of Sugar Camp. AFS is an international organization set up to promote world understanding and brotherhood. Having an AFS student in our school enabled us to select two students from our student body to be our representatives in Americans Abroad. They were Kris Anderson and Glenn Woods.

On January 19th Three Lakes hosted an AFS weekend with area AFS students representing all parts of the globe attending. The students were: Guenter Schnieder, Austria; Dalva De Olievera, Brazil; Beatrice Bonetti, Switzerland; Dalila Simon; Susanne Grieb, Germany; Emiko Saeki, Japan; Mina Benay, Phillippines; Noel Ellis, New Zealand.

EXPRESSES HIMSELF IN VARIOUS WAYS

After a disappointing defeat on the football field earlier in the day, Homecoming 72 was a smashing success. It has been said this Homecoming was the best the school has seen in years.

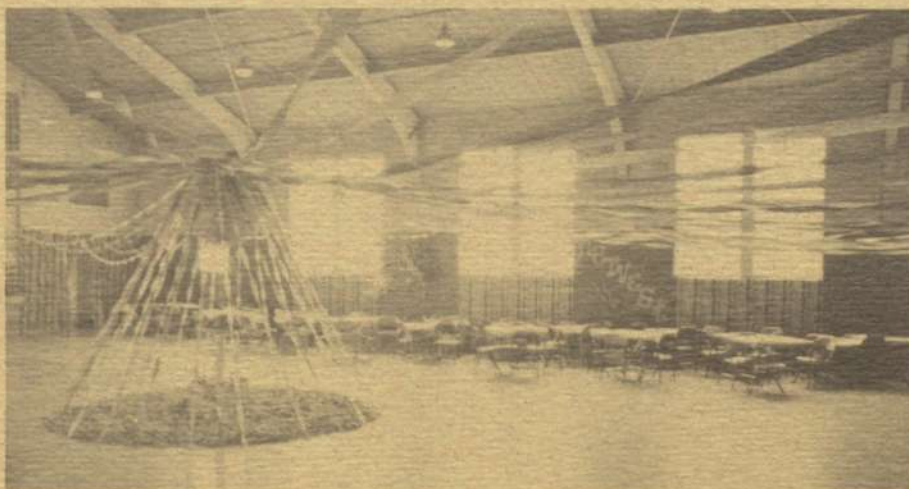

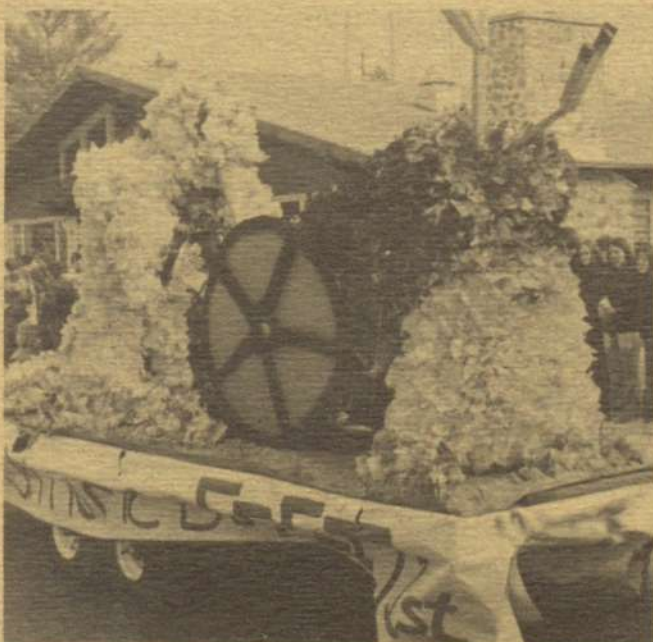

We planned to beat them.

The hapless Three Lakes Blue-jays managed to scrape their way into the win column, after two consecutive seasons of inept baseball. Three Lakes had a record of two wins and five losses with a near win over Crandon, the conference champs.

Mighty Bill Zmek takes a cut!

Although the J.V.'s did not post a win during the season, their inept and lack-lustre play improved tremendously to the point of being reasonably fair. The J.V.'s were paced by the hard running of Jeff Bonack, as he often had to make his own holes due to the lack of blocking in the line.

BLUEJAYS FINALLY MAKE A HIT

The Three Lakes Bluejays finished the season with a 7 win 2 loss record, one game behind the conference champion Crandon team. The Bluejays lost a tough decision to Crandon in the final minutes when time ran out for the Bluejays on the Crandon 3-yard line.

The Bluejays were led by the clutch performances of their Senior players, all of whom received some mention on all-Conference teams. Leading the team was the running duo of Denny Bessa and Bryan Kral.

The front line was anchored by All-Conference selections in Tom Wick, Mark Glembin and Jim Deditz. The passing attack was led by the combination of Danowski to Baltus which clicked in many clutch situations for key yardage.

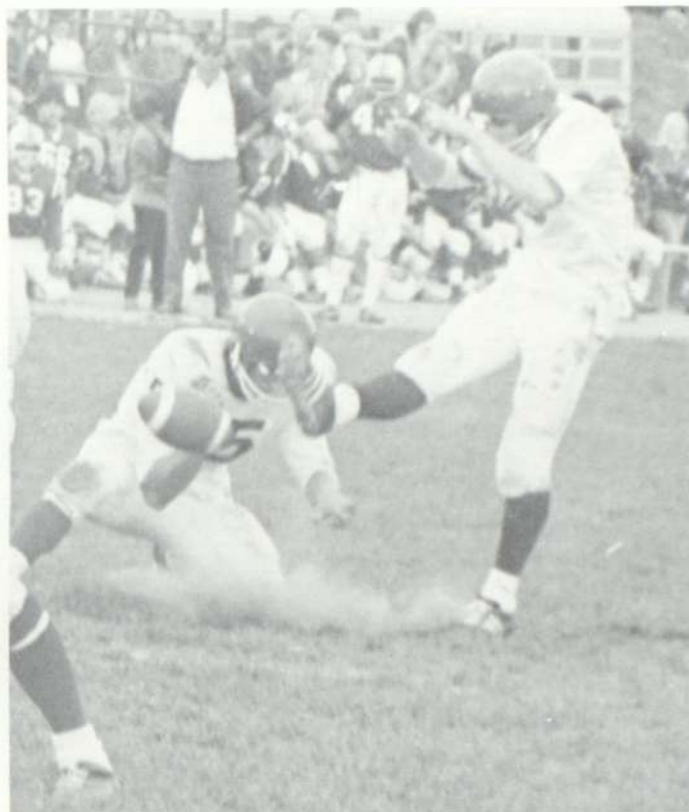

Bessa smashes a tough Pembine defense for key yards, as Baltus and Wick look on.

GRADUATING PLAYERS: Dennis Bessa, Bryan Kral, Pete Baltus, Mark Glembin, Jim Deditz, Tom Wick, Dave Tillman.

Holewinski goes for a touch down.

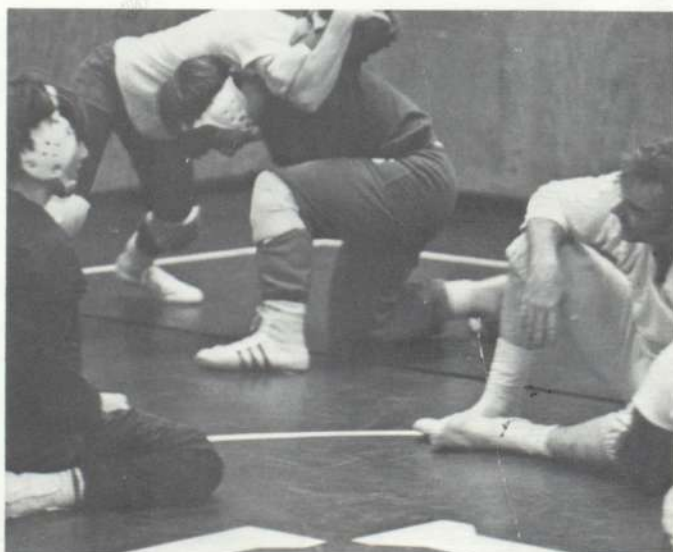

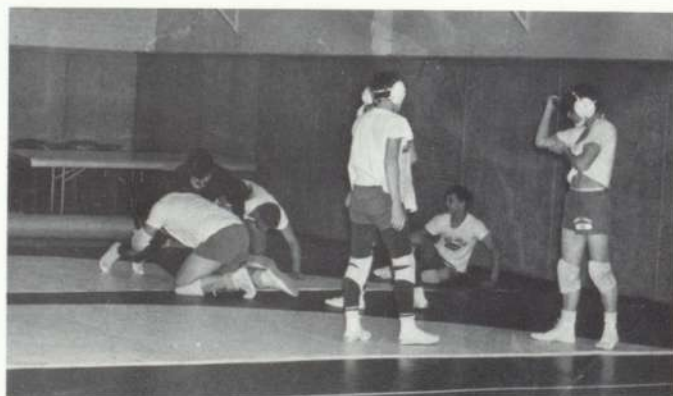

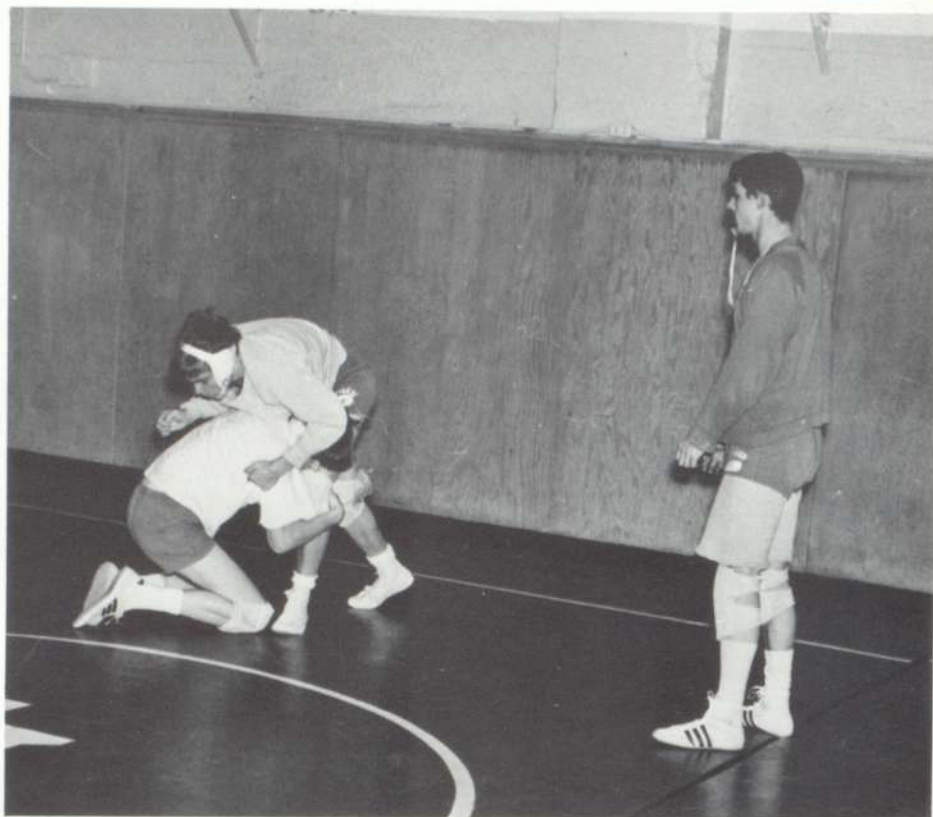

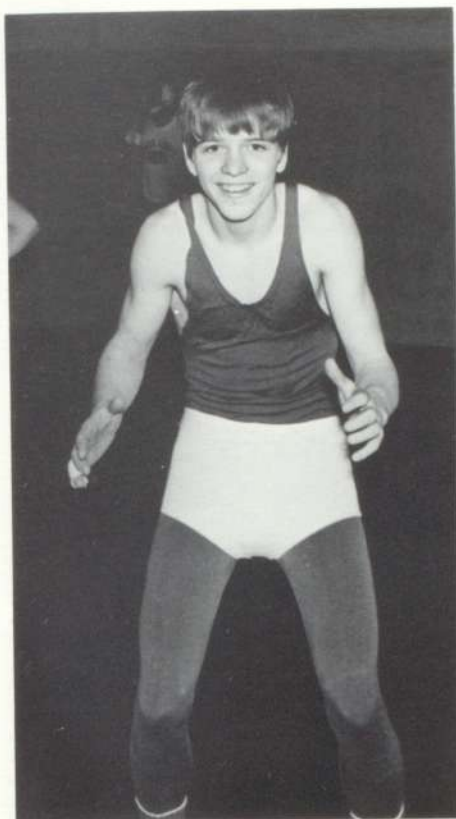

Kral kicks up a little dust.

Despite an early season loss to the "spoilers" from Eagle River, we successfully defended our #1 position up to the last match when Crandon tied us for the conf. championship. Seven lettermen returned this year, giving us the strongest nucleus ever. However, injuries and improving competition in the conf. forced us to share the conf. crown. Seniors Steve J., Gary S., and 10 juniors gave the needed experience for a great season. Peak of the season came when a win by John H. and a pin by Bob S. in the last 2 matches gave us 9 pts. to beat Elcho.

SHOOT! SHOOT! SHOOT THRU THE HOOP

"We walked on Crandon like we walk on wood."

"It was a very good year!" Yes, the Bluejays had a very good year with a season record of 13-4. Early in the season the Bluejays were predicted to be only an average team, but after winning 9 consecutive ball games before faltering against a strong Crandon team we were better than average! The team was greatly improved this year in the conf. and also in spirit and team unity.

The junior varsity basketball season led by a large group of freshmen had a very successful 11-5 record. The J.V. overcame an overall lack of height by quickness and desire. Prospects for next year are very promising.

More electric power is needed to reduce pollution

Why is More Electricity Needed ?

■ 50% of all electricity produced is used by industry and other large volume users to:

1. Reduce pollution. It is estimated that soon a large share of our large commercial and industrial usage will power the machines and processes that reduce or recycle waste materials. In other words more, not less, electric power will be needed to improve our environment.

2. Provide the jobs which keep our country going.

3. Provide the goods and services we need.

4. Operate our vast school system. For example, five years ago, there was no University of Wisconsin-Green Bay. Soon, the UW-GB will be using as much electric power

as an average paper mill. Wisconsin State University-Oshkosh has become the largest single user of electricity in our Oshkosh division.

■ 7% of all electricity produced is used by the farms which produce our food and fiber.

■ 12% of all electricity produced is used by stores, restaurants, services, and small business concerns.

■ 23% of all electricity produced is used in the home and most of this is used for refrigeration, laundry, sanitation, lighting, heating and cooling, and entertainment.
